THE GIFTBACK® DIFFERENCE...

Extending the Value of the gifts

In today's society business are becoming more aware of the need to be more socially conscious. It is no longer enough to just do good business; there is a need for businesses to also do good themselves. With this increased awareness companies have often been faced with the decision of sending their normal gift to say thank you or for the holidays, or making a donation in lieu of that gift. Gifts have proven to be extremely effective in providing customer loyalty, brand recognition and strengthening relationships. When a recipient receives a basket of cookies and shares them with the office it creates a buzz and conversation about who sent the gift and the nice gesture. Utilizing giftback® for your corporate gifting needs helps to extend that value by supporting wonderful causes at the same time. There is no extra cost to the company, and the recipient not only gets the trophy value of receiving a gift, they received a gift that helps make a difference.
